

Gigaclear®

INITIAL WORKS

As you probably already know, Gigaclear will soon be coming to Hailey offering up to 900Mbps up/download speeds to many properties. Some works have already started (e.g. the green box unit recently installed near Vine Farm) and these will continue through the summer. The main initial works will **commence from 28 JUNE 2021** with traffic-light-controlled roadworks on Delly Hill and in Middletown, as well as some roadworks in Priest Hill Lane, Giernalls Road & New Road.

COMMUNITY ONLINE MEETING

Gigaclear have kindly offered to hold an online public meeting for Hailey residents to find out more on **THURSDAY 15 JULY at 7PM** so please save the date! This will be your chance to find out more about Gigaclear, what they will be doing, where and when in Hailey. After a short presentation there will be a Q&A session. More details will follow in due course including invitations being sent to households. Further details of how to attend the meeting will also be posted on the Hailey Village Facebook page.
